

2010-11 Survey Materials

Finance for private not-for-profit institutions and public institutions using FASB Reporting Standards (new aligned form)

date: 12/7/2011

Form: Finance for degree granting private, not-for-profit institutions and public institutions using FASB Reporting Standards

Finance - Private not-for-profit institutions and Public institutions using FASB standards

FASB-Reporting Institutions
General Information - Fiscal Year and Audit

To the extent possible, the finance data requested in this report should be provided from your institution's audited General Purpose Financial Statements (GPFS). Please refer to the instructions specific to each screen of the survey for details and references.

1. Fiscal Year Calendar

This report covers financial activities for the 12-month fiscal year: (The fiscal year reported should be the most recent fiscal year ending before October 1, 2010.)

Beginning: month/year (MMYYYY)	Month:	<input type="text"/>	Year:	<input type="text"/>
And ending: month/year (MMYYYY)	Month:	<input type="text"/>	Year:	<input type="text"/>

2. Audit Opinion

Did your institution receive an unqualified opinion on its General Purpose Financial Statements from your auditor for the fiscal year noted above? (If your institution is audited only in combination with another entity, answer this question based on the audit of that entity.)

☐ Unqualified ☐ Qualified (Explain in box below) ☐ Don't know (Explain in box below)

3. Does this institution or any of its foundations or other affiliated organizations own endowment assets ?

☐ Yes (report endowment assets)
☐ No

4. Intercollegiate Athletics

If your institution participates in intercollegiate athletics, are the expenses accounted for as auxiliary enterprises or treated as student services?

☐ Auxiliary enterprises
☐ Student services
☐ Does not participate in intercollegiate athletics
☐ Other (specify in box below)

5. Does your institution account for Pell grants as pass through transactions (a simple payment on the student's account) or as federal grant revenues to the institution?

☐ Pass through (agency) ☐ Federal grants ☐ Does not award Pell grants

You may use the space below to provide context for the data you've reported above.

<input type="text"/>

Part A - Statement of Financial Position, Page 1

Most recent fiscal year ending before October 2010			
Line No.	Assets, Liabilities, and Net Assets	Current year amont	Prior year amont
Assets			
01	Long-term investments		
19	Property, plant, and equipment, net of accumulated depreciation		
20	Intangible assets, net of accumulated amortization		
02	Total assets

03	Total liabilities		
	03a Debt related to Property, Plant, and Equipment		
Net assets			
04	Unrestricted net assets		
05	Total restricted net assets		
	05a Permanently restricted net assets		
	05b Temporarily restricted net assets		
06	Total net assets		
You may use the space below to provide context for the data you've reported above.			

Most recent fiscal year ending before October 2010			
Line No.	Plant, Property and Equipment	Ending balance	Prior year Ending balance
11	<u>Land and land improvements</u>		
12	<u>Buildings</u>		
13	Equipment, including art and <u>library</u> collections		
15	<u>Construction in Progress</u>		
16	Other		
17	Total Plant, Property, and Equipment CV=[(A11+...A16)]		
18	<u>Accumulated depreciation</u>		
19	Property, Plant, and Equipment, net of accumulated depreciation (from A19)		

You may use the space below to provide context for the data you've reported above.

Part B - Summary of Changes in Net Assets

Most recent fiscal year ending before October 2010			
Line No.	Revenues, Expenses, Gains and Losses	Current year amount	Prior year amount
01	Total <u>revenues</u> and <u>investment return</u>	<div></div>	
02	Total <u>expenses</u>	<div></div>	
03	<u>Other specific changes in net assets</u> CV=[B04-(B01-B02)]		
04	Change in <u>net assets</u>	<div></div>	
05	Net assets, beginning of year	<div></div>	
06	<u>Adjustments to beginning of year net assets</u> CV=[B07-(B04+B05)]		
07	Net assets, end of year (from A06)		

You may use the space below to provide context for the data you've reported above.

Part C - Scholarships and Fellowships

Most recent fiscal year ending before October 2010			
Line No.	Scholarships and Fellowships	Current year amount	Prior year amount
01	<u>Pell grants (federal)</u>		
02	<u>Other federal grants</u>		
03	<u>State grants</u>		
04	<u>Local grants (government)</u>		
05	<u>Institutional grants (funded)</u>		
06	<u>Institutional grants (unfunded)</u>		
07	Total scholarships and fellowships CV=[C01+...+C06]		
08	<u>Allowances</u> (scholarships) applied to <u>tuition and fees</u>		
09	<u>Allowances</u> (scholarships) applied to <u>auxiliary enterprise revenues</u>		

You may use the space below to provide context for the data you've reported above.

Part D - Revenues and Investment Return

Most recent fiscal year ending before October 2010						
Line No.	Source of Funds	Total Amount	Unrestricted	Temporarily restricted	Permanently restricted	Prior Year Total Amount
01	Tuition and fees (net of allowance reported in Part C, line 08)					
Government Appropriations						
02	Federal appropriations					
03	State appropriations					
04	Local appropriations					
Government Grants and Contracts						
05	Federal grants and contracts					
06	State grants and contracts					
07	Local government grants and contracts					
Private Gifts, Grants and Contracts						
08	Private gifts, grants and contracts					
	08a Private gifts					
	08b Private grants and contracts					
09	Contributions from affiliated entities					
Other Revenue						
10	Investment return					
11	Sales and services of educational activities					
12	Sales and services of auxiliary enterprises (net of allowance reported in Part C, line 09)					
13	Hospital revenue If this institution is primarily a hospital, please click here					
14	Independent operations revenue					
15	Other revenue CV=[D16-(D01+...+D14)]					
16						

	Total revenues and investment return (from B01)					
17	Net assets released from restriction	0				
18	Net total revenues, after assets released from restriction					
19	12-month Student FTE from E12 CV=[D19a+D19b]					
	19a Undergraduates					
	19b Graduates					
20	Total revenues and investment return per student FTE CV=[D16/D19]					
You may use the space below to provide context for the data you've reported above.						

Part E - Expenses by Functional and Natural Classification

Most recent fiscal year ending before October 2010									
		(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Line No.	Expenses by Functional Classification	Total amount	Salaries and wages	Benefits	Operation and maintenance of plant	Depreciation	Interest	All other	PY Total Amount
01	Instruction								
02	Research								
03	Public service								
04	Academic support								
05	Student services								
06	Institutional support								
07	Auxiliary enterprises								
08	Net grant aid to students (net of tuition and fee allowances)								
09	Hospital services If this institution is primarily a hospital, please click here								
10	Independent operations								
11	Operation and maintenance of plant (see instructions)	0							
12	Other expenses CV=[E13-(E01+...+E11)]								
13	Total expenses (from B02)				0				
	Prior year total expenses								
14	12-month Student FTE from E12 CV=[E14a+E14b]								
	14a Undergraduates								
	14b Graduates								
15	Total expenses per student FTE CV=[E13/E14]								
You may use the space below to provide context for the data you've reported above.									

Part H - Value of Endowment Assets

Most recent fiscal year ending before October 2010			
Line No.	Value of <u>Endowment Assets</u>	<u>Market Value</u>	Prior Year Amounts
	Include not only endowment assets held by the institution, but any assets held by private foundations affiliated with the institution.		
01	Value of <u>endowment assets</u> at the beginning of the fiscal year		
02	Value of <u>endowment assets</u> at the end of the fiscal year		
You may use the space below to provide context for the data you've reported above.			

2010-11 Survey Materials**Finance Not-for-Profit (FASB)**

date: 12/7/2011

Instruction

[Purpose of component](#)[Changes in Reporting](#)[General Information and Instructions](#)[Context boxes](#)[Coverage](#)[GetHelp](#)[Where to get additional help for reporting finance](#)[Where data appears](#)[Detailed Instructions](#)[Screening questions](#)[Part A Statement of Financial Position](#)[Part B Summary of Changes in Net Assets](#)[Part C Scholarships and Fellowships](#)[Part D Revenues and Investment Return](#)[Part E Expenses by Functional and Natural Classification](#)[Part H Endowment Assets](#)[Parent Child Instructions](#)**Purpose of Component**

The purpose of the IPEDS Finance component is to collect basic financial information from items associated with the institution's General Purpose Financial Statements (GPFS). Item areas include:

- Statement of Financial Position
- Summary of Changes in Net Assets
- Scholarships and Fellowships
- Revenues and Investment Return
- Expenses by Functional and Natural Classification
- Details of Endowment Assets

Changes in Reporting

In January of 2007 a Technical Review Panel recommended changes to better align the finance reporting of public and not-for-profit institutions. The new aligned reporting was optional during the 2008-09 collection, and then optional for a second year during the 2009-10 collection. The new aligned reporting is mandatory for the 2010-11 collection.

For institutions that **did** report using the aligned form in 2009-10 there are no reporting changes for the 2010-11 collection. However, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total revenues and investment return per student FTE in Part D (Revenues and Investment Return)
- Added a calculated value showing Total expenses per student FTE in Part E (Expenses by Functional and Natural Classification)
- Added prior year values for each functional expense in Part E (Expenses by Functional and Natural Classification)
- Added a context box in Part H (Value of Endowment Assets) to explain changes

For institutions that **did not** report using the aligned form in 2009-10 there are numerous reporting changes for the 2010-11 collection. These reporting changes include:

- On Part A (Statement of Financial Position) added these categories:
 - Property, Plant, and Equipment
 - Accumulated Depreciation
 - Intangible assets, net of accumulated amortization
 - Debt related to Property, Plant, and Equipment
- On Part A (Statement of Financial Position) changed the categories of net assets to:
 - Unrestricted net assets
 - Temporarily restricted net assets
 - Permanently restricted net assets
- On Part A (Statement of Financial Position) changed the second page as follows:
 - Added these categories:
 - Construction in progress
 - Other
 - Accumulated depreciation
 - Deleted "Property obtained under capital leases (if not included in equipment)" and clarified in the instructions to include property obtained under capital leases in the categories that best describe the property, such as equipment, buildings, etc.
- On Part C changed the title from "Student Grants" to "Scholarships and Fellowships" in order to be consistent with the form for GASB institutions.
- On Part D (Revenues and Investment Return) changed the format so that they are reported in 3 columns:
 - Unrestricted
 - Temporarily restricted
 - Permanently restricted
- On Part D (Revenues and Investment Return) made these additional changes:
 - Added a line for "net assets released from restriction" that can allow both positive and negative amounts.
 - Separated "Private gifts, grants, and contracts" to allow gifts to be reported separately from private grants and contracts.
- On Part H (Value of Endowment Assets) added an instruction to clarify that the endowment assets of foundations and affiliated entities should be included.

Additionally, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total revenues and investment return per student FTE in Part D (Revenues and Investment Return)
- Added a calculated value showing Total expenses per student FTE in Part E (Expenses by Functional and Natural Classification)
- Added prior year values for each functional expense in Part E (Expenses by Functional and Natural Classification)
- Added a context box in Part H (Value of Endowment Assets) to explain changes

General Instructions

Reporting Period Covered

The starting point for reporting should be amounts reported in the GPFS for the **most recent fiscal year ending before October 1, 2010**. For institutions with fiscal years ending on December 31, this would be the calendar year 2009.

About the Data

Data providers for this component should be familiar with college and university accounting policies and practices as described by the National Association of College and Universities' Business Officers (NACUBO). To provide additional help, accounting terms are underlined and colored blue. These terms are linked to definitions found in the on-line glossary.

Four different types of data appear in this component. There are data:

- Institutions provide from their GPFS and/or underlying records.
- That are prior year data, shown in red, which can be used as a comparison with the current year's data being reported.
- That are carried forward from one part of the component to another part to insure that the data are internally consistent.
- Calculated from the other data elements.

In the latter two cases, the data provider is requested to check that the carried forward data and the calculated data are consistent with the data found in the institution's GPFS. If the data carried forward or calculated are not consistent with the institution's GPFS, then an error in data entry may have occurred.

Context Boxes

Context boxes are provided to allow institutions to provide more information regarding survey component items. Note that some context boxes are posted on the College Navigator Website, which is the college search tool offered by NCES. NCES will review entries in these context boxes for applicability and appropriateness before posting them on the College Navigator Website; institutions should check grammar and spelling of their entries.

Top ▲

Coverage

What to Include

The reporting entity's financial accounting policies and procedures should be the beginning basis for reporting to this IPEDS survey component. However, deviations from the GPFS may be required to respond to this IPEDS survey component. Some of these deviations include:

- If financial categories in the institution's GPFS are more aggregated than required for this IPEDS survey component, then use underlying institutional records to determine the necessary amounts.
- If financial categories in the institution's GPFS are more detailed than required, then combine the GPFS amounts and report only the combined number for this IPEDS survey component.
- If amounts are reported in categories in the GPFS that differ from those required for the IPEDS survey, move those amounts to the IPEDS-requested categories.
- Report all financial in WHOLE DOLLARS only, omitting cents.
- For any item on the survey component where exact data do not exist in the GPFS, please give estimates.

What NOT to Include

Do not report any projected amounts for future years. Do not make adjustments for prior-year corrections unless they are included as such corrections in the GPFS.

Where to Get Help

IPEDS Data Collection Help Desk

Phone: 1-877-225-2568

Email: ipedshelp@rti.org

AIR Website

You can also consult the [AIR website](#) that contains several tutorials on IPEDS data collection, a self-paced overview of IPEDS tools and other valuable resources.

IPEDS Resources Page

In addition, the [IPEDS Resources Page](#) contains frequently asked questions, a link to the glossary, data tip sheets, an archive of survey instruments, information on the new race/ethnicity categories and other relevant information.

Where to Get Additional Get Help for Reporting Finance on this Component

There may be places on and off your campus to get assistance in reporting.

Assistance on campus

Although institutions may be organized in different ways and use different titles for offices, an office on your campus that might help you to report data on this survey component might be called:

- Office of the Chief Financial Officer
- Office of Administration and Finance
- Office of Finance
- Office of Budget
- Office of Financial Services
- Office of the Comptroller (or Controller)
- Office of Accounting

Assistance off campus

Additional references may be found in the National Association of College and University Business Officers' (NACUBO) Financial Accounting and Reporting Manual (FARM) which is available online. Additional information may be found at the NACUBO website (www.nacubo.org). Someone at your institutions in one or more of the offices listed above may already have access to the FARM.

Where the Data Will Appear

Data collected through IPEDS will be accessible at the institution- and aggregate-levels.

At the institution-level, data will appear in the:

- [College Navigator Website](#)
- [IPEDS Data Center](#)
- [IPEDS Data Feedback Reports](#)

At the aggregate-level, data will appear in:

- [IPEDS First Looks](#)
- [IPEDS Table Library](#)
- [IPEDS Data Feedback Reports](#)
- [The Digest of Education Statistics](#)
- [The Condition of Education](#)

Detailed Instructions

This section provides line-by-line instructions for each Part of the Finance Component.

In the instructions, numbers found in parentheses at the end of each line provide additional reference to paragraphs in the National Association of College and Universities' Business Officers' (NACUBO) Financial Accounting and Reporting Manual (FARM). There are also some references to the Statement of Financial Accounting Standards (SFAS).

General Information

Fiscal Year: Enter the beginning and ending dates of the period covered for the reported financial data. If the period is not a full 12-month year, explain in the context box below why a 12-month period was not included.

Audit Opinion: Check the appropriate box to indicate if the GPFS received an unqualified opinion from your auditors. If "qualified" is checked, please note in the context box the nature of the qualification. If the statements have not been audited, please check "Don't know" and note in the context box that the GPFS are unaudited.

Endowments: Indicate whether the institution or any foundations affiliated with the institution hold endowments for the institution. Endowments are funds required to be held permanently while some or all of its investment earnings are intended for institutional use. This question also refers to term endowments and funds functioning as endowment.

Intercollegiate Athletics: According to NACUBO descriptions of functional expenses, intercollegiate athletics may be treated as auxiliary enterprises (if operated as an essentially self-supporting operation) or as student services (if the program is not operated as an essentially self-supporting operation). Please indicate whether your institution treats expenses for intercollegiate athletics as auxiliary enterprises, as student services, or in another functional category, or if the institution does not participate in intercollegiate athletics. This question is optional for the fiscal year 2005 collection.

Pell Grants: Under FASB standards institutions have the option to report Pell grants as federal revenue and scholarships (or allowances) or as a pass-through transaction, essentially a payment on the student's account. The latter option is sometimes referred to as an agency transaction. Indicate whether the institution accounts for Pell grants as pass-through payments or as federal revenue. If the institution does not award Pell grants, select the applicable option.

Context: Enter in this space any explanations specified in other instructions or any other information critical to financial statement users.

Part A – Statement of Financial Position

This part is intended to report the assets, liabilities, and net assets.

Data should be consistent with the Statement of Financial Position in the GPFS.

01 – Long-term investments - Enter the end-of-year market value for all assets held for long-term investment. Long-term investments should be distinguished from temporary investments based on the intention of the organization regarding the term of the investment rather than the nature of the investment itself. Thus, cash and cash equivalents which are held until appropriate long-term investments are identified should be treated as long-term investments. Similarly, cash equivalents strategically invested and reinvested for long-term purposes should be treated as long-term investments. (FARM para. 405)

19 – Property, plant, and equipment, net of accumulated depreciation - Includes end-of-year market value for categories such as land, buildings, improvements other than buildings, equipment, and library books, combined and net of accumulated depreciation. (FARM para. 415)

20 – Intangible assets, net of accumulated amortization – Report all assets consisting of certain nonmaterial rights and benefits of an institution, such as patents, copyrights, trademarks and goodwill. The amount reported should be reduced by total accumulated amortization. (FARM para. 409)

02 – Total assets - Enter the amount from your GPFS which is the sum of:

- a) Cash, cash equivalents, and temporary investments;
- b) Receivables (net of allowance for uncollectible amounts);
- c) Inventories, prepaid expenses, and deferred charges;
- d) Amounts held by trustees for construction and debt service;
- e) Long-term investments;
- f) Plant, property, and equipment; and,
- g) Other assets

These terms are discussed below.

a) Cash, cash equivalents, and temporary investments – Cash equivalents are short term, highly liquid investments that are (1) readily converted to known amounts of cash, and (2) so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Examples are U.S. Treasury bills, certificates of deposit, bankers acceptances, repurchase agreements, and commercial paper. Include amounts for currency on hand and deposits held by financial institutions that can be added to or withdrawn without limitation, such as demand deposits. (FARM para. 402)

b) Receivables (net of allowance for uncollectible amounts) – Include amounts receivable for all purposes, including billings for educational and general programs and auxiliary enterprise activities; student loans receivable; government appropriations receivable; amounts receivable on grants and contracts; accrued dividends and interest receivable; claims against vendors; advances to employees; and reimbursements receivable from affiliated organizations. All amounts receivable should be reported net of an allowance for uncollectible accounts. (FARM para. 403)

c) Inventories, prepaid expenses, and deferred charges – For inventories, include amounts for merchandise inventory held for resale, for example, items held for sale by a bookstore or a dining service. Include supplies and other inventoried items for internal use if recognized as an asset in the GPFS. For prepaid expenses and deferred charges, include amounts paid in advance of services received and expenses deferred because benefits relate to future rather than to current period activities. Examples include prepaid rent, prepaid insurance, bond issue costs, pension costs or other outflows applicable to future periods. (FARM para. 407)

d) Amounts held by trustees for construction and debt service – Include cash and investments held by trustees in accordance with agreements that limit expenditure of those amounts to purchase of plant, property, or equipment or to payment of principal and interest on bonds and notes payable or other long-term debt.

e) Long-term investments – Include the amount for all assets held for long-term investment. (FARM para. 405)

f) Plant, property, and equipment – Include the amount for the balances of land, buildings, equipment, and construction in progress, combined and net of accumulated depreciation. (FARM para. 415)

g) Other assets – Include all other assets not reported elsewhere.

03 – Total liabilities - Enter the amount from your GPFS which is the sum of:

- a) Accounts payable;
- b) Deferred revenues and refundable advances;
- c) Post-retirement and post-employment obligations;
- d) Other accrued liabilities;
- e) Annuity and life income obligations and other amounts held for the benefit of others;
- f) Bonds, notes, and capital leases payable and other long-term debt, including current portion;
- g) Government grants refundable under student loan programs; and,
- h) Other liabilities.

These terms are discussed below.

a) Accounts payable – Includes the total of accounts payable to suppliers. (FARM para. 420)

b) Deferred revenues and refundable advances – Include short-term deferrals and advances including student deposits, advances from third parties for services not yet performed, short-term advances on grants or contracts (including those from the government), and refunds due third parties for amounts previously received. (FARM para. 422)

c) Post-retirement and post-employment obligations – Include amounts for pension obligations, post-retirement healthcare benefit obligations, severance obligations, and similar post-retirement and post-employment obligations. (FARM para. 478 and 479)

d) Other accrued liabilities – Include amounts for any accrued liabilities, including accrued interest payable, salary and benefit (payroll) accruals, and similar accrued expenses not found in another category. (FARM para. 420)

e) Annuity and life income obligations and other amounts held for the benefit of others – Includes agency obligations, the beneficiaries' interests in assets held by the institution subject to split-interest agreements (i.e., the obligation, measured at present value of payments to be made), deferred compensation amounts, and similar obligations recognized in the GPFS.

f) Bonds, notes, and capital leases payable and other long-term debt, including current portion – Include amounts for all long-term debt obligations including bonds payable, mortgages payable, capital leases payable, and long-term notes payable. If the current portion of long-term debt is separately reported in your GPFS, include that amount. (FARM para. 420 and 423)

g) Government grants refundable under student loan programs – Include amounts advanced to the institution by a governmental entity for purposes of making loans to students (if recognized as a liability in the GPFS).

h) Other liabilities – Include all other liabilities not reported elsewhere.

03a – Debt related to property, plant and equipment - Includes amounts for all long-term debt obligations including bonds payable, mortgages payable, capital leases payable, and long-term notes payable. (FARM para. 420.3, 423) If the current portion of long-term debt is separately reported in the GPFS, include that amount.

04 – Unrestricted net assets – Enter the amount of unrestricted (designated and undesignated) net assets. Unrestricted net assets are amounts that are available for the general purposes of the institution without restriction. Include amounts specifically designated by the governing board, such as those designated as quasi-endowments, for building additions and replacement, for debt service, and for loan programs. In addition, include the unrestricted portion of net investment in plant, property, and equipment less related debt. This amount is computed as the amount of plant, property, and equipment, net of accumulated depreciation, reduced by any bonds, mortgages, notes, capital leases, or other borrowings that are clearly attributable to the acquisition, construction, or improvement of those assets. (FARM para. 450)

05a – Permanently restricted net assets – Report the portion of net assets required by the donor or grantor to be held in perpetuity. (FARM para 450.2)

05b – Temporarily restricted net assets – Report net assets that are subject to a donor's or grantor's restriction are restricted net assets. Include long-term but temporarily restricted net assets, such as term endowments, and net assets held subject to trust agreements if those agreements permit expenditure of the resources at a future date. (FARM para. 450.3)

06 – Total net assets - This amount is the sum of total unrestricted net assets and total restricted net assets and should be the sum of lines 04 and 05. The amount should be the same as the number for total net assets found on your statement of financial position.

NOTE: These two conditions must exist or you will be unable to proceed with data entry:

- 1) A06 must equal A04 + A05; and,
- 2) A06 must equal A02 – A03.

Part A – Statement of Financial Position, Page 2

Property, Plant, and Equipment

Property obtained under capital leases should be reported in the categories that best describe the property, such as equipment, buildings, etc. (FARM para. 415)

Gross Asset Amounts - The amounts on lines A11 - A16 are the total carrying amounts, without reducing the amounts for accumulated depreciation.

11 – Land and land improvements - Provide end of year values for land and land improvements as a reconciliation of beginning of the year values with additions to and retirements of land and land improvements to obtain end of year values. Use your underlying institutional records.

12 – Buildings - End of year values for buildings represent a reconciliation of beginning of the year values with additions to and retirements of building values to obtain end of year values. Capitalized leasehold improvements should be included on this line if the improvements are to leased facilities.

13 – Equipment, including art and library collections - End of year values for equipment represent a reconciliation of beginning of the year values with additions to and retirements of equipment values to obtain end of year values. Capitalized leasehold improvements should be included on this line if the improvements are to leased equipment.

15 – Construction in progress - Report capital assets under construction and not yet placed into service.

16 – Other - Report all other amounts for capital assets not reported in lines 11-15.

17 – Total Plant, Property and Equipment - This calculated value is generated using this formula:

$$A17 = (A11 + \dots + A16)$$

18 – Accumulated depreciation - Report all depreciation amounts, including depreciation on assets that may not be included on any of the above lines.

Part B – Summary of Changes in Net Assets

This part is intended to report a summary of changes in net assets and to determine that all amounts being reported on the Statement of Financial Position (Part A), Revenues and Investment Return (Part D), and Expenses by Functional and Natural Classification (Part E) are in agreement.

01 – Total revenues and investment return – Enter total revenues and investment return. The amount should represent all revenues reported for the fiscal period and should agree with the revenues recognized in the institution's GPFS. If your institution divides its statement of activities into operating and nonoperating sections, selected revenues in the nonoperating section must be added to the operating revenue subtotal.

02 – Total expenses – Enter total expenses. The amount should represent total expenses recognized in the institution's GPFS. If your institution divides its statement of activities into operating and nonoperating sections, selected expenses in the nonoperating section must be added to the operating expense subtotal. Please enter the amount of expenses as a positive number which will then be treated as a negative number in further computations as indicated by the parentheses.

03 – Other specific changes in net assets - This calculated value is generated using this formula:

$$B03 = B04 - (B01 - B02)$$

Because this is a calculated value, data providers are advised to compare this amount with the corresponding amount from their GPFS or underlying records. If these amounts differ materially, the data provider is advised to check the other amounts provided on this screen for data entry errors.

The amount should equal the sum of these amounts found in your GPFS:

- a) Actuarial gain or (loss) on split interest agreements;
- b) Gains or (loss) on sale of plant assets;
- c) Other gain or (loss);
- d) Discontinued operations;
- e) Extraordinary gain or (loss); and,
- f) Cumulative effect of change(s) in accounting principle.

These terms are discussed below.

a) Actuarial gain or (loss) on split interest agreements – Includes the net adjustment to the beneficial interests of third parties in assets held subject to annuities, unitrusts, and other split-interest agreements as reported in the GPFS. (FARM para. 431)

b) Gains or (loss) on sale of plant assets – Includes the net gain or loss on the sale of plant, property and equipment reported in the GPFS. (FARM para. 415)

c) Other gain or (loss) – Includes any other gain or loss recognized in the GPFS other than those accounted for as part of a, b, d, e, and f above or reported in Part D as an investment return.

d) Discontinued operations - Includes gain or (loss) from the disposition of a business segment. These amounts should be the same as those reported in the GPFS.

e) Extraordinary gain or (loss) - Includes the gain or (loss) from an unusual and infrequent transaction. These amounts should be the same as those reported in the GPFS.

f) Cumulative effect of change(s) in accounting principle – These amounts are identical to the amounts reported in the GPFS.

04 – Change in net assets - This amount should agree with the change in net assets for the year reported in the GPFS.

05 – Net assets, beginning of year - Enter the amount of net assets, end of year from the previous year's IPEDS Finance report. In all cases except when the institution reports a change in accounting principle via retroactive adjustment, this amount is also the beginning net asset balance in the GPFS.

06 – Adjustments to beginning of year net assets - This calculated value is generated using this formula:

$$B06 = B07 - (B04 + B05)$$

The amount should equal any adjustments to beginning net asset balances reported in your GPFS. This includes adjustments for retroactive applications of changes in accounting principle and prior period adjustments. Because this is a calculated value, data providers are advised to compare this amount with the corresponding amount from their GPFS or underlying records. If these amounts differ materially, the data provider is advised to check the other amounts provided on this screen for data entry errors.

07 – Net assets, end of year - This amount is carried forward from Part A, line 06. This amount should agree with the amount reported for total net assets in the GPFS at the end of the fiscal year.

Part C - Scholarships and Fellowships

This part is intended to report details about scholarships and fellowships.

For each source on lines 01–06, enter the amount of resources received that are used for scholarships and fellowships. Scholarships and fellowships include: grants-in-aid, trainee stipends, tuition and fee waivers, and prizes to undergraduate students. Student grants do not include amounts provided to students as payments for teaching or research or as fringe benefits.

For lines 08 and 09, identify amounts that are reported in the GPFS as allowances only. "Allowance" means the institution displays the financial aid amount as a deduction from tuition and fees or a deduction from auxiliary enterprise revenues in its GPFS.

The allowance category is intended to be consistent with the definitions provided in the NACUBO Advisory Report Accounting and Reporting Scholarship Allowances to Tuition and Other Fee Revenues by Higher Education (AR 97-1, January 17, 1997), which is available at the NACUBO website (www.nacubo.org). AR 97-1 states:

"A scholarship allowance is the difference between the stated charge for goods and services provided by the institution and the amount which is billed to students and/or third parties making payments on behalf of students. In considering what is or is not revenue, the following rule applies: amounts received to satisfy student tuition and fees will be reported as revenue only once (e.g. student fees, gifts, investment income) and only amounts received from students and third-party payers to satisfy tuition and fees will be recognized as tuition and fee revenue."

Refer to these specific instructions for more information about reporting student scholarships and fellowships.

01 – Pell grants (federal) – Enter the amount awarded to the institution under the Pell Grant program. Private institutions generally report Pell Grants as agency transactions.

02 – Other federal grants – Enter the amount awarded to the institution under other federal student aid programs, such as Supplemental Education Opportunity Grants (SEOG), DHHS training grants (aid portion only), DOD grants, Department of Veterans Affairs grants, and State Student Incentive Grants (SSIG). Do not include matching portions for any of these programs.

03 – State grants – Enter the amount awarded to the institution under state student aid programs, including the state portion of State Student Incentive Grants (SSIG).

04 – Local grants (government) – Enter the amount awarded to the institution under local government student aid programs.

05 – Institutional grants (funded) – Enter the amounts awarded to students from institutional resources restricted for the purpose of scholarships and fellowships, such as scholarships and fellowships funded by gifts or endowment return restricted for that purpose. Only if control over how the resources will be spent passes to the student (for example, the grant is paid directly to the student to use to defray the cost of off-campus housing) is the amount reported as revenue and expense.

06 – Institutional grants (unfunded) – Enter the amount awarded to students from unrestricted institutional resources. Only if control over how the resources will be spent passes to the student (for example, the grant is paid directly to the student to use to defray the cost of off-campus housing) is the amount reported as revenue and expense.

07 – Total scholarships and fellowships – This calculated value is the sum of lines 01 through 06. Because this is a calculated value data providers are advised to check this amount with the corresponding amount on their GPFS or underlying records. If these amounts differ materially, the data provider is advised to check the other amounts provided on this screen for data entry errors.

08 – Allowances (scholarships) applied to tuition and fees – Enter the amount of allowances (scholarships) applied to tuition and fees. The amount on this line, when added to the amount in Part D, line 01 equals gross tuition and fees. (FARM para. 460)

09 – Allowances (scholarships) applied to auxiliary enterprise revenues – Enter the amount of allowances (scholarships) applied to auxiliary enterprise revenues (e.g., dormitory charges). The amount on this line, when added to the amount in Part D, line 07 equals gross auxiliary enterprise revenue. (FARM 460)

Part D – Revenues and Investment Return

PLEASE COMPLETE PARTS B AND C BEFORE PROVIDING DATA FOR PART D.

This part is intended to report revenues by source.

The revenues and investment return reported in this part should agree with the revenues reported in the institution's GPFS.

All revenue source categories are intended to be consistent with the definitions provided in Chapter 4 (Accounting for Private Colleges and Universities) of the NACUBO FARM.

Exclude from revenue (and expenses) interfund or intraorganizational charges and credits. Interfund and intraorganizational charges and credits include interdepartmental charges, indirect costs, and reclassifications from temporarily restricted net assets.

Revenues are reported by restriction (columns) and by source (rows).

Column 1, Total Amount – This column is calculated by the sum of the columns 2 through 4.

Column 2, Unrestricted – Report revenues that are not subject to limitations by a donor-imposed restriction.

Column 3, Temporarily Restricted – Report revenues that are subject to limitation by donor specification as to use or the time when use may occur (such as a later period of time or after specified events have occurred).

Column 4, Permanently Restricted – Report revenues that must be maintained in perpetuity due to a donor-imposed restriction.

For institutions receiving American Recovery and Reinvestment Act (ARRA) revenues during the reporting period, report these amounts as part of line 16, Total revenues and investment return. If the GPFS shows a separate amount for ARRA revenues in another revenue category (e.g., Federal grants and contracts) remove that amount from that other category for IPEDS reporting.

Refer to these specific instructions for more information about reporting revenues and investment return.

01 – Tuition and fees (net of allowance reported in Part C, line 08) – Enter the amount of tuition and educational fees, net of any allowances applied in the GPFS. Include in this amount all fees for continuing education programs, conferences, and seminars. (FARM para. 460)

Government Appropriations

02 – Federal appropriations – Enter all amounts received from the federal government through a direct appropriation of Congress, except grants and contracts, which should be reported on line D05. An example of a federal appropriation is a federal land-grant appropriation. (FARM para. 463) **Do not include Pell Grants on this line. Do not include any ARRA revenues on this line (see line 15 in this part).**

03 – State appropriations – Enter all amounts received from a state government through a direct appropriation of its legislative body, except for state grants and contracts, which should be reported on line 06. An example of a state appropriation that should be entered on line 03 is an annual state appropriation for operating expenses of the institution. (FARM para. 463) **Do not include any ARRA revenues on this line (see line 15 in this part).**

04 – Local appropriations – Enter all amounts received from a local government (i.e., city and/or county) through a direct appropriation of its legislative body, except for local grants and contracts, which should be reported on line 07. An example of a local appropriation that should be entered on line 04 is an annual local appropriation for operating expenses of the institution. (FARM para. 463)

Government Grants and Contracts

05 – Federal grants and contracts – Enter all revenues from federal agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from federal agencies. If federal Pell and similar student aid grants are treated as agency transactions in your GPFS, they are excluded from this amount. If federal Pell and similar student aid grants are treated as student aid expenses or as allowances when awarded, include the grant revenue on this line and in Part C. (FARM para. 464) **Do not include any ARRA revenues on this line (see line 15 in this part).**

06 – State grants and contracts – Enter all revenues from state government agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from state agencies. If state grants for student aid are treated as agency transactions in your GPFS, they are excluded from this amount. If state grants for student aid are treated in your GPFS as student aid expenses or as allowances when awarded, include the grant revenue on this line and in Part C. (FARM para. 464) **Do not include any ARRA revenues on this line (see line 15 in this part).**

07 – Local government grants and contracts – Enter all revenues from local government agencies that are for specific undertakings such as research projects, training projects, and similar activities, including contributions from local agencies. If local grants for student aid are treated as agency transactions in your GPFS, they are excluded from this amount. If local grants for student aid are treated in your GPFS as student aid expenses or as allowances when awarded, include the grant revenue on this line and in Part C. (FARM para. 464)

Private Gifts, Grants, and Contracts

08a – Private gifts – Enter revenues from private (non-governmental) entities including revenues received from gift or contribution nonexchange transactions (including contributed services) except those from affiliated entities, which are entered on line 09. Includes bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution. (FARM para. 462)

08b – Private grants and contracts – Enter revenues from private (non-governmental) entities that are for specific research projects, other types of programs, or for general institutional operations (if not government appropriations). Examples are research projects, training programs, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. (FARM para. 464)

09 – Contributions from affiliated entities – Enter all revenues received from non-consolidated affiliated entities, such as fund raising foundations, booster clubs, other institutionally-related foundations, and similar organizations created to support the institution or organizational components of the institution.

Other Revenue

10 – Investment return – Enter all investment income (i.e., interest, dividends, rents and royalties), gains and losses (realized and unrealized) from holding investments (regardless of the nature of the investment), student loan interest, and amounts distributed from irrevocable trusts held by others (collectively referred to as "investment return"). Changes in the value of interest rate swaps should be included in this amount.

11 – Sales and services of educational activities – Enter all revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research or public service, and revenues of activities that exist to provide instructional and laboratory experience for students and that incidentally create goods and services that may be sold. Examples include film rentals, scientific and literary publications, testing services, university presses, dairies, and patient care clinics that are not part of a hospital. The revenue of patient care clinics that are part of a hospital is included in Part D, line 13. (FARM para. 465)

12 – Sales and services of auxiliary enterprises (net of allowance reported in Part C, line 09) – Enter the amount of revenues generated by the auxiliary enterprise operations, net of any allowances applied in the general purpose financial statements. Auxiliary enterprises are operations that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to the cost of the service. Examples are residence halls, food services, student health services, intercollegiate athletics, college unions, college stores, and movie theaters. (FARM para. 465)

13 – Hospital revenue – Enter the revenues and gains of hospitals operated as a component of a reporting institution of higher education. (FARM para. 465) **If your hospital is reporting in IPEDS educational program activity that is conducted separate from an institution of higher education, do not use this line. Refer to the special instructions below.**

SPECIAL INSTRUCTIONS FOR CERTAIN HOSPITALS AND/OR MEDICAL CENTERS

Hospitals and/or medical centers reporting educational program activity that is operated by an entity for which the primary function is other than higher education should complete the IPEDS Finance Survey as follows:

a. Include in Part D the revenues directly associated with the educational programs offered. Combine the revenues of all educational programs offered.

b. Do not complete Part D, line 13 (Hospital revenue). This information is required only for hospitals whose financial activity is reported as a component of an institution of higher education.

c. Include in Part E all expenses associated with instruction and educational support services based on your underlying accounting records. Combine the expenses of all educational programs offered.

d. Complete Part A and Part B if the information for the educational program(s) component is obtainable from the underlying accounting records. **Do not report information for the hospital as a whole.**

14 – Independent operations revenue – Enter all revenues associated with operations independent of the primary missions of the institution. This category generally includes only those revenues associated with major federally-funded research and development centers. Do not include the profit (or loss) from operations owned and managed as investments of the institution's endowment funds, which should be reported on line 10.

15 – Other revenue - This calculated value is generated using this formula:

$$D15 = D16 - (D01 + \dots + D14)$$

Amounts which should NOT be included in this generated number are gains or other unusual or nonrecurring items that are required to be included in Part B, such as gains on the sale of plant assets, actuarial gains, and extraordinary gains.

Because this is a calculated value, data providers are advised to compare this amount with the corresponding amount from their GPFS or underlying records. If these amounts differ materially, the data provider is advised to check the other amounts provided on this screen for data entry errors. **For institutions that received American Recovery and Reinvestment Act (ARRA) revenues during the reporting period, allow these amounts to be reported through this calculated value by including the amount in line 16.**

16 – Total revenues and investment return - This amount is carried forward from Part B, line 01. This amount should include ARRA revenues received by the institution, if any.

17 – Net assets released from restriction – Enter all revenues resulting from the reclassification of temporarily restricted assets or permanently restricted assets.

18 – Net total revenues, after assets released from restriction – This calculated value is generated using this formula:

$$D18 = D16 + D17$$

19 – 12-month Student FTE from E12 – This is the sum of the values in lines 19a and 19b.

19a – Undergraduates – This value is the 12-month undergraduate student FTE that was estimated or reported in the most recent 12-month Enrollment component.

19b – Graduates – This value is the 12-month graduate student FTE that was estimated or reported in the most recent 12-month Enrollment component.

20 – Total revenues and investment return per Student FTE – This amount is generated by dividing line 16 by line 19. This calculated value is used by the system to compare the data reported by the institution to the data of institutions that are in the same sector (e.g., public/private, 4-year/2-year) to see if the calculated value is an extreme value that is too high or low. While it is not anticipated that your institution would have the same overall revenues, this comparison may be useful for ensuring that all appropriate revenues have been included in the finance survey component, or excluded when appropriate.

Part E – Expenses by Functional and Natural Classification

PLEASE COMPLETE PART B BEFORE PROVIDING DATA FOR PART E.

Part E is intended to report expenses by function. All expenses recognized in the GPFS should be reported using the expense functions provided on lines 01–12. With the exception of the operation and maintenance of plant (line 11), these functional categories are consistent with Chapter 5 (Accounting for Private Colleges and Universities) of the NACUBO FARM. (FARM para 504)

The total for expenses on line 13 should agree with the total expenses reported in your GPFS including interest expense and any other non-operating expense.

Do not include losses or other unusual or nonrecurring items in Part E. (Special items including gains and losses should be reported in Part B.) Operation and maintenance expenses are no longer reported as a separate expense category. Instead these expenses are to be distributed among the other functional expense categories.

Functional and Natural Expenses

Column 1, Total amount - Enter the total expense for each applicable functional category listed on lines 01–10. No amount may be entered on line 11 for total operations and maintenance expenses. This line is provided to assist in the allocation of operation and maintenance expenses. Total expenses, line 13, should agree with the total expenses reported in your GPFS.

Column 2, Salaries and wages – This column describes the natural classification of salary and wage expenses incurred in each functional category. For this classification, enter the amount of salary and wage expenses for the function identified in lines 01–11 and 13.

Column 3, Benefits - Enter in this column the amount of benefits expenses incurred in each functional category identified on lines 01-11 and 13.

Column 4, Operation and maintenance of plant - This column, in conjunction with Line 11, is used to show the distribution of operation and maintenance of plant expenses to the various functions. Enter in this column the allocated amount of operation and maintenance of plant expenses to each function listed on lines 01-10. The total operation and maintenance of plant expenses should be entered as a negative amount on line 11 of this column, so that the net total of the column as well as the net total of line 11 is zero. (FARM para. 704.14)

Column 5, Depreciation - Enter in this column the amount of depreciation allocated to each functional category identified on lines 01-11 and 13. (FARM para. 704.15)

Column 6, Interest - Enter in this column the amount of interest incurred on debt allocated to each function identified on lines 01-11 and 13. (FARM para. 704.16)

Column 7, All other - This column will be calculated by the survey program as the difference between the total amount entered in column 1 and the sum of columns 2 through 6. Please check the calculated amount for accuracy to determine that no keying errors have occurred.

Refer to these specific instructions for more information about reporting expenses.

Expenses by Functional Classification

01 – Instruction – Enter the instruction expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. The instruction category includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students. Include expenses for both credit and non-credit activities. Exclude expenses for academic administration if the primary function is administration (e.g., academic deans). Such expenses should be entered on line 04. (FARM para. 703.4)

02 – Research – Enter the expenses for activities specifically organized to produce research outcomes and either commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. Do not report nonresearch sponsored programs (e.g., training programs) on this line. Training programs generally are reported on line 01 (Instruction). (FARM para. 703.5)

03 – Public service – Enter the expenses specifically for public service and for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to the particular sectors of the community. Include expenses for community services, cooperative extension services, and public broadcasting services. (FARM para. 703.6)

04 – Academic support – Enter the expenses for support services that are an integral part of the institution's primary mission of instruction, research, or public service and that are not charged directly to these primary programs. Include expenses for libraries, museums, galleries, audio/visual services, academic development, academic computing support, course and curriculum development, and academic administration. Include expenses for medical, veterinary and dental clinics if their primary purpose is to support the institutional program, that is, they are not part of a hospital. (FARM para. 703.7)

05 – Student services – Enter the expenses for admissions, registrar activities and activities whose primary purpose is to contribute to students emotional and physical well-being and to their intellectual, cultural and social development outside the context of the formal instructional program. Examples are career guidance, counseling, financial aid administration, student records, athletics, and student health services, except when operated as a self-supporting auxiliary enterprise. (FARM para. 703.8)

06 – Institutional support – Enter the expenses for the day-to-day operational support of the institution. Include expenses for general administrative services, executive direction and planning, legal and fiscal operations, administrative computing support, and public relations/development. (FARM para. 703.9)

07 – Auxiliary enterprises – Enter expenses of essentially self-supporting operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, student health services, intercollegiate athletics (only if essentially self-supporting), college unions, college stores, faculty and staff parking, and faculty housing. (FARM para. 703.11)

08 – Net grant aid to students (net of tuition and fee allowances) - Enter on this line ONLY scholarships and fellowships recognized as expenses in your GPFS. Do not include Federal Work Study expenses on this line. Work study expenses should be reported within the function where the student worked. Whereas in the past, most student awards were recorded as expenses under this classification, most student awards are now reported as either scholarship allowances or agency transactions. Student awards, made from contributed funds or grant funds, that are under the control of the institution (the institution decides who gets the award) result in allowances that reduce tuition or auxiliary enterprise revenue. Student awards, made from grant funds, that are made to students identified by the grantor are considered agency transactions and do not result in either revenues or expenses. Scholarships and fellowships in the form of allowances applied to tuition and fees should be reported in Part C, line 09, and not included in Part E, line 08. Scholarships and fellowships in the form of allowances applied to auxiliary services should be reported in Part C, line 10, and not included in Part E, line 08. (FARM para. 703.10)

According to NACUBO Advisory Report 97-1 (January 17, 1997), scholarships and fellowships are "expenses to the extent that the organization incurs incremental expense in providing goods and services." Thus payments made by the institution to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services NOT provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing or for the cost of board not provided by institutional contract meal plans.

09 – Hospital services – Enter all expenses associated with the operation of a hospital reported as a component of an institution of higher education. Include nursing expenses, other professional services, administrative services, fiscal services, and charges for operation and maintenance of plant. (FARM para. 703.12) **Hospitals or medical centers reporting educational program activities conducted independent of an institution of higher education (not as a component of a reporting institution of higher education) should not complete this line. Refer to the special instructions below.**

SPECIAL INSTRUCTIONS FOR CERTAIN HOSPITALS AND/OR MEDICAL CENTERS Hospitals and/or medical centers reporting educational program activity operated by an entity for which the primary function is other than higher education should complete the IPEDS Finance Survey as follows:

- a. Include in Part D the revenues directly associated with the educational programs offered. Combine the revenues of all educational programs offered.
- b. Do not complete Part D, line 13 (Hospital revenue). This information is required only for hospitals whose financial activity is reported as a component of an institution of higher education.
- c. Include in Part E all expenses associated with instruction and educational support services based on your underlying accounting records. Combine the expenses of all educational programs offered.
- d. Complete Part A and Part B if the information for the educational program(s) component is obtainable from the underlying accounting records. **Do not report information for the hospital as a whole.**

10 – Independent operations – Enter all expenses for separately organized operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service), although they may contribute indirectly to the enhancement of these programs. This category is generally limited to expenses of major federally-funded research and development centers. Do not include the expenses of operations owned and managed as investments of the institution's endowment funds. (FARM para. 703.13)

11 – Operation and maintenance of plant - This line, in conjunction with Column 4, is used to show the distribution of operation and maintenance of plant expenses to the various functions. Enter all expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include utilities, fire protection, property insurance, and similar items. Also included are information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support). FASB institutions do not report this function on their GPFS; instead these expenses are charged to or allocated to other functions. In the column for operation and maintenance of plant (column 4), enter (as a negative amount) on this line the total amount of operation and maintenance of plant expenses allocated to the other functions. (FARM para. 703.14)

12 - Other expenses – This calculated value is generated using this formula:

$$E12 = E13 - (E01 + \dots + E11)$$

Because this is a generated number, data providers are advised to compare this amount with a corresponding amount in the institution's GPFS. If these amounts differ materially, the data provider is advised to check the other amounts provided on this screen for data entry errors.

13 – Total expenses – The amount in column 1 is carried forward from Part B, line 02. This should be the same as the amount for total expenses found in your GPFS. Enter in columns 2, 3, 5, and 6 the total amount of each natural expense incurred by the institution. These amounts will be used to compute the amounts in line 12, as well as line 13, column 7.

14 – 12-month Student FTE from E12 - This is the sum of the values in lines 14a and 14b.

14a – Undergraduates - This value is the 12-month undergraduate student FTE that was estimated or reported in the most recent 12-month Enrollment component.

14b – Graduates - This value is the 12-month graduate student FTE that was estimated or reported in the most recent 12-month Enrollment component.

15 – Total expenses per Student FTE - This amount is generated by dividing line 13 by line 14. This calculated value is used by the system to compare the data reported by the institution to the data of institutions that are in the same sector (e.g., public/private, 4-year/2-year) to see if the calculated value is an extreme value that is too high or low. While it is not anticipated that your institution would have the same overall expenses, this comparison may be useful for ensuring that all appropriate expenses have been included in the finance survey component, or excluded when appropriate.

Part H – Value of Endowment Assets

This part is intended to report details about endowments.

This part appears only for institutions answering yes to the general information question regarding endowment assets.

Report the amounts of gross investments of endowment, term endowment, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. DO NOT reduce investments by liabilities for Part H.

For institutions participating in the NACUBO Endowment Study, this amount should be comparable with values reported to NACUBO.

01 – Value of endowment assets at the beginning of the fiscal year — If the market value of some investments is not available, use whatever value was assigned by the institution in reporting market values in the annual financial report.

02 – Value of endowment assets at the end of the fiscal year — Report here the market values of the endowment assets at the end of the fiscal year. If the market value is not available for some investments, use whatever value was assigned by the institution in reporting market values in the annual financial report.

Additional Instructions for Institutions Reporting Finance Data for Other Institutions

Most degree-granting institutions reporting IPEDS data report all their data for each IPEDS component, including this finance component. However, some institutions (called "children") are set up to report only certain parts of the IPEDS finance component, while the "parent" institution reports all portions of the finance component but does not double count those items already reported by the children institutions. Here is what each type of institution should report:

Part	Parent Institution	Child Institution
Part A – Statement of Financial Position	Reports sum of Parent and Child data	Does not report
Part B – Summary of Changes in Net Assets	Reports sum of Parent and Child data	Does not report
Part C – Scholarships and Fellowships	Reports parent data only	Reports child data only
Part D – Revenues and Investment Return	Reports parent data only	Reports child data only
Part E – Expenses by Functional and Natural Classification	Reports parent data only	Reports child data only
Part H – Value of Endowment Assets	Reports parent data only	Reports child data only

Child institutions should only report the data for their institution when reporting IPEDS finance data.

Parent institutions should report the sum of Parent and Child data for Parts A and B, and should report Parent data only in parts C, D, E, and H. This is done so that scholarships and fellowships, revenues and investment return, expenses by functional and natural classification, and value of endowment assets are not double counted by Parent and Child institutions.

Term	Definition
Academic support	A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.
Accumulated depreciation	The total depreciation charged as expenses as of the reporting date (in the current year and in prior years) on the capital assets of the institution. FASB Statement No. 117 and GASB Statement No. 34 require that accumulated depreciation to date be recognized.
Allowances	That part of a scholarship or fellowship that is used to pay institutional charges such as tuition and fees or room and board charges.
Assets	Physical items (tangible) or rights (intangible) that have value and that are owned by the institution. Assets are useful to the institution because they are a source of future services or because they can be used to secure future benefits.
Audit opinion	An audit, performed by external (or outside) auditors, that usually consists of a one-page "opinion" letter on the general-purpose financial statements. The "opinion" paragraph of the letter usually states that "In our opinion, the financial statements present fairly, in all material respects, the financial position as of (date) and the results of operations for the year then ended, in conformity with accounting standards generally accepted in the United States." If the auditor cannot state completely the substance of the previous "opinion" sentence, then the auditor will add a phrase such as "...except for..." and state the basis for the exception. When the auditor includes exceptions to the opinion, the opinion is considered to be a "qualified opinion;" when no such exceptions are included, the opinion is considered to be an "unqualified opinion."
Auxiliary enterprises expenses	Expenses for essentially self-supporting operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, student health services, intercollegiate athletics (only if essentially self-supporting), college unions, college stores, faculty and staff parking, and faculty housing. Institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation.
Auxiliary enterprises revenues	Revenues generated by or collected from the auxiliary enterprise operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, intercollegiate athletics, college unions, college stores, and movie theaters.
Benefits	Payments made to or on behalf of an individual over and above that received in the form of a salary or wage. Frequently this is associated with an insurance payment.
Buildings	Capital assets built or acquired for occupancy and use by the entity. These are structures such as classrooms, research facilities, administrative offices, and storage. Includes built-in fixtures and equipment that are essentially part of the permanent structure. Buildings held for the production of revenue are classified as investments.
Construction in progress	Capital assets under construction or development that have not yet been placed into service, such as a building or parking lot. Capital assets are not subject to depreciation while in a construction in progress status.
Contributions from affiliated entities	Revenues from non-consolidated affiliated entities, such as fund raising foundations, booster clubs, other institutionally-related foundations, and similar organizations created to support the institution or organizational units of the institution. General purpose financial statements for FASB institutions include a separate line for these revenues; GASB institutions classify such revenues as gifts.
Depreciation	The allocation or distribution of the cost of capital assets, less any salvage value, to expenses over the estimated useful life of the asset in a systematic and rational manner. Depreciation for the year is the amount of the allocation or distribution for the year involved.
Endowment assets	Gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations.
Expenses	The outflow or other using up of assets or incurrence of liabilities (or a combination of both) from delivering or producing goods, rendering services, or carrying out other activities that constitute the institution's ongoing major or central operations or in generating revenues. Alternatively, expenses may be thought of as the costs of goods and services used to produce the educational services provided by the institution. Expenses result in a reduction of net assets.
Federal grants	Transfers of money or property from the Federal government to the education institution without a requirement to receive anything in return. These grants may take the form of grants to the institutions to undertake research or they may be in the form of student financial aid. (Used for reporting on the Finance component)
Federal grants (grants/educational assistance funds)	

	Grants provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants and Supplemental Educational Opportunity Grants (SEOG). Also includes need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs. (Used for reporting on the <u>Student Financial Aid</u> component)
Government appropriations (revenues)	Revenues received by an institution through acts of a legislative body, except grants and contracts. These funds are for meeting current operating expenses and not for specific projects or programs . The most common example is a state's general appropriation. Appropriations primarily to fund capital assets are classified as capital appropriations.
Grants and contracts (revenues)	Revenues from governmental agencies and nongovernmental parties that are for specific research projects, other types of programs , or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. GASB institutions are required to classify in financial reports such grants and contracts as either operating or nonoperating.
Hospital services	Expenses associated with a hospital operated by the postsecondary institution (but not as a component unit) and reported as a part of the institution. This classification includes nursing expenses, other professional services, general services, administrative services, and fiscal services. Also included are information technology expenses, actual or allocated costs for operation and maintenance of plant, interest and depreciation related to hospital capital assets.
Hospitals (revenues)	Revenues generated by a hospital operated by the postsecondary institution. Includes gifts, grants, appropriations, research revenues, endowment income, and revenues of health clinics that are part of the hospital unless such clinics are part of the student health services program. Sales and service revenues are included net of patient contractual allowances. Revenues associated with the medical school are included elsewhere. Also includes all amounts appropriated by governments (federal, state, local) for the operation of hospitals.
Independent operations	Expenses associated with operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. This category is generally limited to expenses of a major federally funded research and development center. Also includes information technology expenses, actual or allocated costs for operation and maintenance of plant, interest and depreciation related to the independent operations. Expenses of operations owned and managed as investments of the institution's endowment funds are excluded.
Independent operations (revenues)	Revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may contribute indirectly to the enhancement of these programs. Generally includes only those revenues associated with major federally funded research and development centers. Net profit (or loss) from operations owned and managed as investments of the institution's endowment funds is excluded.
Institutional grants (funded) (allowances)	Scholarships and fellowships awarded to students from institutional resources that are restricted to student aid. Private institutions generally report these grants as allowances. If control over these resources passes to the student, the amount is reported as an expense. (Used for reporting under FASB Standards.)
Institutional grants (unfunded) (allowances)	Scholarships and fellowships awarded to students from unrestricted institutional resources. Private institutions generally report these grants as allowances. If control over these resources passes to the student, the amount is reported as an expense. (Used for reporting under FASB Standards.)
Institutional support	A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the IT costs associated with student services and operation and maintenance of plant will also be applied to this function.
Instruction	A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.
Interest	The price paid (or received) for the use of money over a period of time. Interest income is one component of investment income. Interest paid by the institution is interest expense.
Investment return	Income from assets including dividends, interest earnings, royalties, rent, gains (losses) etc.
Land and land improvements	Capital assets consisting of land and improvements such as athletic fields, golf courses, or lakes. Land is nondepreciable; some land improvements are depreciable and some are nondepreciable.
Liabilities	Debts and obligations of the institution owed to outsiders or claims or rights, expressed in monetary terms, of an institution's creditors. GASB institutions are required to report liabilities under two categories - current liabilities and noncurrent liabilities.
Library	

	An organized collection of printed, microform, and audiovisual materials which (a) is administered as one or more units, (b) is located in one or more designated places, and (c) makes printed, microform, and audiovisual materials as well as necessary equipment and services of a staff accessible to students and to faculty. Includes units meeting the above definition which are part of a learning resource center.
Local grants	Local monies awarded to the institution under local government student aid programs .
Long-term investments	Money or capital invested for purposes of receiving a profitable return over a period of time of more than one year. Long-term investments should be distinguished from temporary investments based on the intention of the organization regarding the terms of the investment rather than the nature of the investment itself. Includes: 1) cash held until appropriate investments are identified; 2) repurchase agreements and other money market media; 3) equity securities and mutual fund investments; 4) debt securities; 5) real estate held for income production; 6) beneficial interest in trusts; and 7) other. GASB institutions report these investments under "noncurrent assets."
Market value	The value of a good as determined in the market at a specific point in time or what individuals in the market for the good are willing to pay to obtain the good at a given point in time.
Net assets	The excess of assets over liabilities or the residual interest in the institution's assets remaining after liabilities are deducted. The change in net assets results from revenues, gains, expenses, and losses. FASB institutions classify net assets into three categories: permanently restricted, temporarily restricted, and unrestricted. GASB institutions classify net assets into three categories: invested in capital, net of related debt; restricted (with separate displays of restricted-expendable and restricted-nonexpendable net assets); and unrestricted. Although the terms are similar, the composition of the categories of net assets between FASB and GASB institutions can differ significantly.
Net grant aid to students (expenses)	The portion of scholarships and fellowships granted by an institution that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances.
Operation and maintenance of plant (expenses -- FASB and GASB aligned form reporters)	A functional expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include utilities, fire protection, property insurance, and similar items. This function does include amounts charged to auxiliary enterprises, hospitals, and independent operations. Also includes information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support). Institutions may, as an option, distribute depreciation expense to this function. FASB institutions do not use this function. Instead these expenses are charged to or allocated to other functions.
Other specific changes in net assets	Changes that occur infrequently rather than on a regular basis, but still affect the net assets of the institution. Included in this category are: actuarial gain or (loss) on split interest agreements; gain or (loss) on sale of plant assets; other gain or (loss); discontinued operations; extraordinary gain or (loss); and cumulative effect of change(s) in accounting principle.
Pell Grant program	(Higher Education Act of 1965, Title IV, Part A, Subpart I, as amended.) Provides grant assistance to eligible undergraduate postsecondary students with demonstrated financial need to help meet education expenses.
Permanently restricted	Net assets of FASB institutions that must be maintained in perpetuity. Permanently restricted net assets increase when institutions receive contributions for which donor-imposed restrictions limiting the institution's use of an asset or its economic benefits neither expire with the passage of time nor can be removed by the organization's meeting certain requirements. Donor-imposed restrictions on the use of the investment income on the assets may also change the amount of such net assets. Permanent endowment funds are the most common example.
Private gifts (Revenues)	Revenues from private (non-governmental) entities including revenues received from gift or contribution nonexchange transactions (including contributed services) except those from affiliated entities. Includes bequests, promises to give (pledges), gifts from an affiliated organization or a component unit not blended or consolidated, and income from funds held in irrevocable trusts or distributable at the direction of the trustees of the trusts. Includes any contributed services recognized (recorded) by the institution.
Private gifts, grants and contracts (revenues)	Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services.
Private grants and contracts (Revenues)	Revenues from private (non-governmental) entities that are for specific research projects, other types of programs, or for general institutional operations (if not government appropriations). Examples are research projects, training programs, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses.
Public service	A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.
Research	

	A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) Institutions include actual or allocated costs for operation & maintenance of plant, interest, and depreciation.
Restricted net assets (FASB institutions only)	Assets held by the institution upon which restrictions have been placed by donors. These restrictions may be temporary or permanent. They restrict the institution in its use of the assets and/or the period of time for which the restriction applies.
Revenues	The inflow of resources or other enhancement of net assets (or fund balance) of an institution or settlements of its liabilities (or a combination of both) from delivering or producing goods, rendering services, or other activities that constitute the institution's ongoing major or central operations. Includes revenues from fees and charges, appropriations, auxiliary enterprises, and contributions and other nonexchange transactions. Revenues are reported net of discounts and allowances (that is, the revenue reported is reduced by the amount of discounts and allowances) for FASB institutions and for GASB institutions that have implemented GASB Statement No. 34.
Salaries and wages	Amounts paid as compensation for services to all employees?faculty, staff, part time, full time, regular employees, and student employees. This includes regular or periodic payment to a person for the regular or periodic performance of work or a service and payment to a person for more sporadic performance of work or a service (overtime, extra compensation, summer compensation, bonuses, sick or annual leave, etc.).
Sales and services of educational activities (revenues)	Revenues from the sales of goods or services that are incidental to the conduct of instruction, research or public service. Examples include film rentals, sales of scientific and literary publications, testing services, university presses, dairy products, machine shop products, data processing services, cosmetology services, and sales of handcrafts prepared in classes.
State and local government grants	State and local monies awarded to the institution under state and local student aid programs, including the state portion of State Student Incentives Grants (SSIG). (Used for reporting Student Financial Aid data)
Student services	A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well - being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self - supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support.) Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.
Tuition and fees (published charges)	The amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. If tuition is charged on a per-credit-hour basis, the average full-time credit hour load for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of all students that the student who does not pay the charges is an exception.
Unrestricted net assets	The net assets of both FASB and GASB institutions that do not fit the definition of other categories of net assets. These are net assets held by the institution upon which no restrictions have been placed by the donor or other party external to the institution.

2010-11 Survey Materials**Finance**

date: 12/7/2011

FAQs**Click one of the following questions to view the answer.****General**

- [1\) Who is required to complete this survey?](#)

- [17\) My institution offered an early retirement program last year to faculty and staff as a long-term plan to reduce costs. An expense of \\$5 million dollars was incurred. How should this be reported in IPEDS finance reporting?](#)
- [18\) How are revenues per student FTE and expenses per student FTE calculated, and why were they added to the screens?](#)

Public Institutions Using GASB Standards

- [1\) What changes occurred to the survey form for GASB reporting institutions for 2010-11?](#)
- [2\) Can public institutions report using FASB?](#)
- [3\) I see the term CV on several lines of the finance survey. What is this referring to?](#)
- [4\) What are operating versus nonoperating revenues?](#)
- [5\) We reported federal appropriations in operating revenues rather than non-operating revenues in our financial statements. How should I report them on IPEDS?](#)
- [6\) What are some examples of independent operations?](#)
- [7\) I have an edit that says that Other revenue \(or expense\) can't be negative. I didn't enter it. What do I do?](#)
- [8\) What are discounts and allowances \(Part E\)? \(We don't discount our tuition.\)](#)
- [9\) We do not capitalize our library. Do I report it on Part A page 2?](#)
- [10\) Why does operation and maintenance of plant appear as both a row and column in Part C \(expenses and other deductions\)?](#)
- [11\) If my institution is a GASB-reporter, where should my institution report the gain or loss on the sale of a plant asset?](#)
- [12\) How should my institution report the allocation of depreciation, operation and maintenance of plant \(O&M\), and interest expenses to the other functional expense categories in Part C?](#)
- [13\) Where did component units go?](#)

Private Not-for-Profit and Public Institutions Using FASB

- [1\) What changes occurred to the survey form for FASB, not-for-profit reporting institutions for 2010-11?](#)
- [2\) My institution is primarily a hospital with a small instruction program. How should I report the hospital part of my institution?](#)
- [3\) What are some examples of independent operations?](#)
- [4\) What value do I use to report plant, property, and equipment on the second page of Part A?](#)
- [5\) I have an edit that says that Other revenue \(or expense\) can't be negative. I didn't enter it. What do I do?](#)
- [6\) I see the term CV on several lines of the finance survey. What is this referring to?](#)
- [7\) What is the difference between funded and unfunded institutional grants as reported on the Student Grants part of the survey?](#)
- [8\) What are allowances in Part C \(Scholarships and Fellowships\)?](#)
- [9\) Why does operation and maintenance of plant appear as both a row and column in Part E \(expenses\)?](#)

Private for-profit institutions

- [1\) What changes occurred to the survey form for FASB, for-profit reporting institutions for 2010-11?](#)
- [2\) I have an edit that says that Other revenue \(or expense\) can't be negative. I didn't enter it. What do I do?](#)
- [3\) I see the term CV on several lines of the finance survey. What is this referring to?](#)
- [4\) What are allowances in Part C \(Student Grants\)?](#)

5) The financial records of my institution do not break down expenses the way they are listed on Part E. How do I report expenses for my institution?

Answers:

General

1) Who is required to complete this survey?

All Title IV postsecondary institutions are required to respond to the Finance survey. Institutions that have a Program Participation Agreement (PPA) with the Department of Education are required to respond. HOWEVER, if your institution is a branch campus of another institution and you SHARE a PPA, then you may make arrangements with the Help Desk to submit one finance survey that covers all of your campuses. Because data provided for institutions are most useful if reported individually, campuses are encouraged to report separately if possible, but reporting together is allowed if the campuses share a PPA.

[Back to top](#)

2) Where do I get the data to fill out this survey?

Each institution should have annual financial statements that are audited by an outside auditor. These financial statements are referred to as general purpose financial statements (GPFS). The finance survey is designed to follow the format of the financial statements suggested by the Financial Accounting Standards Board (FASB) and the Governmental Accounting Standards Board (GASB).

[Back to top](#)

3) What changes occurred in the finance surveys in collection year 2010-11?

A number of changes were made to the collection forms. Forms for public and private not-for-profit institutions were aligned in order to improve comparability across versions and to increase the utility of the data collected. The changes were optional in collection year 2009-10, and are mandatory in collection year 2010-11.

[Back to top](#)

4) Why were calculated values for revenues and expenses per Student FTE added to the component?

The reported finance data, when combined with data reported in the 12-month enrollment component (E12), can help institutions check data that will appear in the institution's data feedback report.

[Back to top](#)

5) My institution received funds from the American Recovery and Reinvestment Act (ARRA). Where should they be reported?

GASB-reporting institutions should report ARRA revenues into the total included in Part B, line 19 (Total nonoperating revenues)

[Back to top](#)

6) We haven't been audited yet and won't have an audited financial statement until May. Do I still have to fill this out?

YES, you must complete the finance component. Base your response on the information you have at this point. Answer the audit question as "don't know" and make a note in the context section that the financial statements have not yet been audited.

[Back to top](#)

7) What period should the finance survey cover?

The finance survey data should come from the last fiscal year that ended on or before October 31, 2010. For example, if your institution's fiscal year ends on June 30, it would come from the financial statements covering the year ending June 30, 2010. If your institution's fiscal year ends on December 31, your financial statements for the year ending December 31, 2009 would be used.

[Back to top](#)

8) The fiscal year for my institution changed. How do I report for the finance survey?

A change in fiscal year usually creates a short fiscal year (from the previous fiscal year end date to the new fiscal year end date). This short fiscal year should be covered by the finance survey. The next finance survey should cover a full fiscal year. Also, indicate this change in fiscal year in the caveats box at the bottom of the first page of the survey.

[Back to top](#)

9) How do I know what reporting standards are used to prepare the financial statements?

Ask your finance officer. This person should be aware of any changes in accounting standards.

[Back to top](#)

10) What happens if I respond incorrectly to the reporting standards screening question?

You will get the wrong finance forms. If you find you have responded incorrectly, go back to the screening question and change your response. When you save the screen the old data will disappear and the new correct forms will be available.

[Back to top](#)

11) What is the difference between “business-type” activities and “governmental” activities?

These activity types refer to how the institution reports, or will report, its financial activities in their general purpose financial statements (GPFS), as defined in GASB Statement 34. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

[Back to top](#)

12) What is combined reporting and how does it work?

Institutional keyholders MUST call the Help Desk before reporting combined data. A Help Desk representative will set up a combined reporting situation for you. We call this a “parent/child” relationship. In this case, one institution reports data for the entire unit, which includes the main campus (parent) and all branch campuses (children). All institutions in the combined report MUST share the same Program Participation Agreement (PPA). Multiple institutions MUST NOT report identical combined data for the same audit.

[Back to top](#)

13) Can a system office report combined data?

A system office may report combined data for institutions that are included in its system-wide audit if they are included in the same PPA. For institutions that are not included in the same PPA, the system may report Part A data (Statement of Net Assets, Statement of Financial Position, or Balance Sheet) for the institutions included in the system-wide audit, but each institution must report its own revenues, expenses, and scholarships. A more detailed description may be found at <http://nces.ed.gov/ipeds/web2000/jointaudit.asp>. If a system will be reporting this way, they must contact the Help Desk before reporting combined data.

[Back to top](#)

14) When does a system office need to report data?

A system office needs to report data when reporting combined data or when it has its own separate budget. If a system office’s budget is integrated into an institution such as a flagship university, it may be included in that institution’s finance survey.

[Back to top](#)

15) My institution is part of a system and the system was audited as a unit, so we don’t have an opinion just on this school. How do I answer the question about the audit opinion?

You should base your answer on the audit for the system since that audit includes your institution.

[Back to top](#)

16) My institution does not award degrees. Do we still need to complete the Finance component?

Yes. However, with the 2009-10 collection year various sections and lines from previous years were eliminated. A more detailed description can be found at http://nces.ed.gov/ipeds/submit_data/changes0910.asp

[Back to top](#)

17) My institution offered an early retirement program last year to faculty and staff as a long-term plan to reduce costs. An expense of \$5 million dollars was incurred. How should this be reported in IPEDS finance reporting?

The \$5 million dollars in expense should be reported in the Total amount of the Employee fringe benefits or Benefits (rather than being allocated across the other functions such as Instruction, Research, or Institutional support). By doing so, the \$5 million dollar expense will appear as an Other expenses & deductions within the benefits column. The consequence of this reporting is that the one-time early retirement buyout will not affect the historical nature of total or benefits costs by function. An explanation may also be added to the context box to explain this early retirement buyout. The Financial Accounting and Reporting Manual (FARM) from the National Association of College and University Business Officers offers little guidance on this topic. However, the FARM contains useful language from GASB (Statement 47) and FASB (Concept Statement 2) indicating that such expenses should be treated as benefits: “In financial statements based on accrual accounting, employers should recognize a liability and expense for voluntary termination benefits (for example, early-retirement incentives) when the offer has been accepted and the amount can be estimated.”

[Back to top](#)

18) How are revenues per student FTE and expenses per student FTE calculated, and why were they added to the screens?

The calculation of these values is described in the instructions. These calculated values are used by the system to compare the data reported by the institution to the data of institutions that are in the same sector (e.g., public/private, 4-year/2-year) to see if the calculated value is an extreme value that is too high or low. While it is not anticipated that your institution would have the same overall revenue or expenses, this comparison may be useful for ensuring that all appropriate amounts have been included in the finance survey component, or excluded when appropriate.

[Back to top](#)

Public Institutions Using GASB Standards**1) What changes occurred to the survey form for GASB reporting institutions for 2010-11?**

For institutions that **did** report using the aligned form in 2009-10 there are no reporting changes for the 2010-11 collection. However, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total operating and nonoperating revenue per student FTE in Part B (Revenues and Other Additions)
- Added a calculated value showing Total expenses and deductions per student FTE in Part C (Expenses and Other Deductions)
- Added prior year values for each functional expense in Part C (Expenses and Other Deductions)
- Added a context box in Part H (Details of Endowment Assets) to explain changes

For institutions that **did not** report using the aligned form in 2009-10 there are numerous reporting changes for the 2010-11 collection. These reporting changes include:

- On Part A (Statement of Net Assets) changed line 2 to read "Depreciable capital assets, net of depreciation" and deleted the line for accumulated depreciation.
- On Part A (Statement of Net Assets) changed the second page as follows:
 - Changed title to "Part A – Capital Assets"
 - Report only ending balance (discontinued reporting beginning balance, additions, and retirements)
 - Combined "Equipment" and "art and library collections"
 - Deleted "Property obtained under capital leases (if not included in equipment)" and clarified instructions to include property obtained under capital leases in the categories that best describe the property, such as equipment, buildings, etc.
 - Added a line for Other capital assets
 - Added a line for "intangible assets, net of accumulated amortization" after the line for accumulated depreciation
- On Part B (Revenues and Other Additions), separated local operating grants and contracts separately from private operating grants and contracts
- On Part B (Revenues and Other Additions), added sales and services of educational activities
- On Part C (Expenses and Other Deductions) made changes to resemble the form for FASB institutions, by adding columns for operation and maintenance of plant (O&M) and interest, and removing the functional classifications of depreciation and interest. Operation and maintenance of plant as a function are used to allocate O&M to natural classes as it is in the form for FASB institutions. In addition, removed the functional classifications of depreciation and interest which requires public institutions to allocate depreciation and interest to appropriate functional categories – as independent institutions do.
- Parts F and G, used for reporting component units using FASB and GASB standards, is discontinued.
- On Part H (Details of Endowment Assets) added an instruction clarifying that the endowment assets of foundations and affiliated entities should be included.

Additionally, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total operating and nonoperating revenue per student FTE in Part B (Revenues and Other Additions)
- Added a calculated value showing Total expenses and deductions per student FTE in Part C (Expenses and Other Deductions)
- Added prior year values for each functional expense in Part C (Expenses and Other Deductions)
- Added a context box in Part H (Details of Endowment Assets) to explain changes

[Back to top](#)

2) Can public institutions report using FASB?

Yes, but only in very rare instances. Your finance/business officer will know which version of the finance component should be completed.

[Back to top](#)

3) I see the term CV on several lines of the finance survey. What is this referring to?

CV is an abbreviation for Calculated Value. You do not need to enter an amount on this line. Once you click on Verify and Save, the system will calculate the amount based on other data you have entered. A formula may be found in the same block where you find the abbreviation CV.

[Back to top](#)

4) What are operating versus nonoperating revenues?

Operating revenues are received in exchange for goods or services provided, such as sales or tuition. The payer must also be the one who receives the services. Nonoperating revenues result from "nonexchange transactions" such as donations, state appropriations, tax revenues, and certain grants.

[Back to top](#)

5) We reported federal appropriations in operating revenues rather than non-operating revenues in our financial statements. How should I report them on IPEDS?

Federal appropriations are usually accounted for as non-operating revenues, similarly to state appropriations. Amounts reported as federal appropriations are intended to meet current operating expenses, and not generally intended for a specific purpose as operating revenues are. If, however, the institution included the revenue in operating revenue, report it there for purposes of IPEDS as well.

[Back to top](#)

6) What are some examples of independent operations?

Independent operations include federally funded labs such as Argonne at the University of Chicago, the Livermore Labs in the UC system, and the Jet Propulsion Lab at Cal Tech. These are major ancillary operations that are related to the primary missions of instruction, research, and public service but they are so significant as to warrant separate classification.

[Back to top](#)

7) I have an edit that says that Other revenue (or expense) can't be negative. I didn't enter it. What do I do?

This amount is a calculated value. It is derived by subtracting the sum of the detail items above this amount from the total below it. Negative amounts in these fields are caused when the total entered is less than the sum of the detail items entered. Check for keying errors and recheck totals. Nonoperating expenses, such as interest on debt, should be reported on Part C.

[Back to top](#)

8) What are discounts and allowances (Part E)? (We don't discount our tuition.)

Discounts and allowances are simply the part of scholarships used to pay institutional charges such as tuition and fees or room and board. The difference between total scholarships (reported in the top part of Part E) and net scholarships (reported on Part C) is total discounts and allowances.

[Back to top](#)

9) We do not capitalize our library. Do I report it on Part A page 2?

If you do not capitalize it, do not report it in property, plant, and equipment.

[Back to top](#)

10) Why does operation and maintenance of plant appear as both a row and column in Part C (expenses and other deductions)?

In the new aligned form for GASB institutions, operation and maintenance of plant appear as both a row and column in Part C (expenses and other deductions). The row and column are designed to be used to show how the institution distributes operation and maintenance (O&M) of plant expenses. The total row and column have zeroes for O&M. Consequently, the cell where the O&M column and row intersect should be a negative number equal to the total O&M expenses of the institution.

[Back to top](#)

11) If my institution is a GASB-reporter, where should my institution report the gain or loss on the sale of a plant asset?

Such components in the changes in the net assets of the institution should be reflected in Line 05 in Part D - Summary of Changes in Net Assets. Although this line is a calculated value that is entitled, Adjustments to beginning net assets, this is the most appropriate place for these values to be captured (instead of as Other revenue or Other expenses in Part B or C). Although this type of transaction is NOT an adjustment to beginning net assets, this is the best place for it to be captured in the IPEDS finance component for comparability with FASB-reporters. Additionally, institutions having such type of transactions should explain that in the context box available in Part D.

[Back to top](#)

12) How should my institution report the allocation of depreciation, operation and maintenance of plant (O&M), and interest expenses to the other functional expense categories in Part C?

The National Association of College and University Business Officers (NACUBO) has prepared an advisory report (AR 2010-1), entitled, Public Institutions: Methodologies for Allocating Depreciation, Operation and Maintenance of Plant, and Interest Expenses to Functional Expense Categories, to assist public institutions to develop an approach to allocating these expenses among the functional expense categories. The Advisory Report steps through a cost allocation approach. Because independent institutions have been allocating such costs for more than a decade, the Report focuses on methods currently used by independent institutions. The report can be accessed at NACUBO's website (<http://www.nacubo.org/>).

[Back to top](#)

13) Where did component units go?

Separate reporting was eliminated when institutions moved to the new aligned reporting that is mandatory for 2010-11.

[Back to top](#)

1) What changes occurred to the survey form for FASB, not-for-profit reporting institutions for 2010-11?

For institutions that **did** report using the aligned form in 2009-10 there are no reporting changes for the 2010-11 collection. However, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total revenues and investment return per student FTE in Part D (Revenues and Investment Return)
- Added a calculated value showing Total expenses per student FTE in Part E (Expenses by Functional and Natural Classification)
- Added prior year values for each functional expense in Part E (Expenses by Functional and Natural Classification)
- Added a context box in Part H (Value of Endowment Assets) to explain changes

For institutions that **did not** report using the aligned form in 2009-10 there are numerous reporting changes for the 2010-11 collection. These reporting changes include:

- On Part A (Statement of Financial Position) added these categories:
 - Property, Plant, and Equipment
 - Accumulated Depreciation
 - Intangible assets, net of accumulated amortization
 - Debt related to Property, Plant, and Equipment
- On Part A (Statement of Financial Position) changed the categories of net assets to:
 - Unrestricted net assets
 - Temporarily restricted net assets
 - Permanently restricted net assets
- On Part A (Statement of Financial Position) changed the second page as follows:
 - Added these categories:
 - Construction in progress
 - Other
 - Accumulated depreciation
 - Deleted "Property obtained under capital leases (if not included in equipment)" and clarified in the instructions to include property obtained under capital leases in the categories that best describe the property, such as equipment, buildings, etc.
- On Part C changed the title from "Student Grants" to "Scholarships and Fellowships" in order to be consistent with the form for GASB institutions.
- On Part D (Revenues and Investment Return) changed the format so that they are reported in 3 columns:
 - Unrestricted
 - Temporarily restricted
 - Permanently restricted
- On Part D (Revenues and Investment Return) made these additional changes:
 - Added a line for "net assets released from restriction" that can allow both positive and negative amounts.
 - Separated "Private gifts, grants, and contracts" to allow gifts to be reported separately from private grants and contracts.
- On Part H (Value of Endowment Assets) added an instruction to clarify that the endowment assets of foundations and affiliated entities should be included.

Additionally, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total revenues and investment return per student FTE in Part D (Revenues and Investment Return)
- Added a calculated value showing Total expenses per student FTE in Part E (Expenses by Functional and Natural Classification)
- Added prior year values for each functional expense in Part E (Expenses by Functional and Natural Classification)
- Added a context box in Part H (Value of Endowment Assets) to explain changes

2) My institution is primarily a hospital with a small instruction program. How should I report the hospital part of my institution?

Hospitals with a small nursing school or radiologic technology program should report activity for the instructional program only. The hospital revenues and expenses should not be included. If the instructional program revenues and expenses cannot be separated from the hospital, contact the Help Desk for further options for reporting.

[Back to top](#)

3) What are some examples of independent operations?

Independent operations include federally funded labs such as Argonne at the University of Chicago, the Livermore Labs in the University of California system, and the Jet Propulsion Lab at Cal Tech. These are major ancillary operations that are related to the primary missions of instruction, research, and public service but they are so significant as to warrant separate classification.

[Back to top](#)

4) What value do I use to report plant, property, and equipment on the second page of Part A?

This is the book value (or the value reported in the accounting records) of these assets without consideration for accumulated depreciation. This amount should be reported in the notes to the financial statements, or may be supplied by the business/finance officer of the institution.

[Back to top](#)

5) I have an edit that says that Other revenue (or expense) can't be negative. I didn't enter it. What do I do?

This amount is a calculated value. It is derived by subtracting the sum of the detail items above this amount from the total below it. Negative amounts in these fields are caused when the total entered is less than the sum of the detail items entered. Check for keying errors and recheck totals.

[Back to top](#)

6) I see the term CV on several lines of the finance survey. What is this referring to?

CV is an abbreviation for Calculated Value. You do not need to enter an amount on this line. Once you click on Verify and Save, the system will calculate the amount based on other data you have entered. A formula may be found in the same block where you find the abbreviation CV.

[Back to top](#)

7) What is the difference between funded and unfunded institutional grants as reported on the Student Grants part of the survey?

Funded grants are institutional resources restricted for student aid, such as scholarships and fellowships. They have been restricted by an outside source such as a donor or contract. Unfunded institutional grants are those that are awarded to students from unrestricted institutional resources.

[Back to top](#)

8) What are allowances in Part C (Scholarships and Fellowships)?

Allowances are the portion of scholarships awarded to students that are used to pay institutional charges such as tuition and fees or room and board.

[Back to top](#)

9) Why does operation and maintenance of plant appear as both a row and column in Part E (expenses)?

The row and column are designed to be used to show how the institution distributes operation and maintenance (O&M) of plant expenses. Since not-for-profit accounting does not recognize O&M as a function, the total row and column have zeroes for O&M. Consequently, the cell where the O&M column and row intersect should be a negative number equal to the total O&M expenses of the institution.

[Back to top](#)

Private for-profit institutions

1) What changes occurred to the survey form for FASB, for-profit reporting institutions for 2010-11?

There are no reporting changes for the 2010-11 collection. However, some other minor non-reporting changes were made including:

- Clarified instructions
- Added a calculated value showing Total revenues and investment return per student FTE in Part D (Revenues and Investment Return)
- Added a calculated value showing Total expenses per student FTE in Part E (Expenses by Function)
- Added prior year values for each functional expense in Part E (Expenses by Function)

[Back to top](#)

2) I have an edit that says that Other revenue (or expense) can't be negative. I didn't enter it. What do I do?

This amount is a calculated value. It is derived by subtracting the sum of the detail items above this amount from the total below it. Negative amounts in these fields are caused when the total entered is less than the sum of the detail items entered. Check for keying errors and recheck totals.

[Back to top](#)

3) I see the term CV on several lines of the finance survey. What is this referring to?

CV is an abbreviation for Calculated Value. You do not need to enter an amount on this line. Once you click on Verify and Save, the system will calculate the amount based on other data you have entered. A formula may be found in the same block where you find the abbreviation CV.

[Back to top](#)

4) What are allowances in Part C (Student Grants)?

Allowances are the portion of scholarships awarded to students that are used to pay institutional charges such as tuition and fees or room and board.

[Back to top](#)

5) The financial records of my institution do not break down expenses the way they are listed on Part E. How do I report expenses for my institution?

The functional categories listed for expenses are recommended by the National Association of College and University Business Officers (NACUBO). If you do not break down expenses into the categories on Part E, they will all appear in the line titled "All other expenses" when you click on verify and save. A box is provided at the bottom of the screen where you can explain how your expenses are divided and why you cannot report them in the categories listed.

2010-11 Survey Materials

date: 12/7/2011

Finance for degree granting private, not-for-profit institutions and public institutions using FASB Reporting Standards

Integrated Postsecondary Education Data System

IPEDS Web-Based Data Collection 2010-11 Edit Specifications for the Finance Survey

Private Not-for-Profit Institutions and Public Institutions Using FASB

- [Part A – Statement of Financial Position](#)
- [Part B – Summary of Changes in Net Assets](#)
- [Part C – Scholarships and Fellowships](#)
- [Part D – Revenues and Investment Return](#)
- [Part E – Expenses by Functional and Natural Classification](#)
- [Part H – Details of Endowment Assets](#)

Part A – Statement of Financial Position

Institutions must report amounts greater than or equal to zero for long-term investments; property, plant, and equipment; accumulated depreciation; intangible assets, net of accumulated amortization; total assets; and total liabilities. Any amounts in these fields reported as zero must be explained. An explanation is also requested if long-term investments exceed total assets.

Amounts must be reported for unrestricted net assets and total net assets. If the amounts are equal to or less than zero, an explanation will be requested. An explanation is also requested if total net assets does not equal the sum of unrestricted net assets and restricted net assets. Total net assets must equal the difference between total assets and total liabilities. The amount of total net assets should be between 50% and 200% of the prior year total net assets. If this is not true, the institution will be asked to confirm that the amount reported is accurate.

Amounts for land and land improvements; buildings; equipment, including art and library collections; construction in progress; accumulated depreciation; and other may not be negative. Entries are required for the amounts of land and land improvements and for equipment.

[Top](#)

Part B – Summary of Changes in Net Assets

Amounts are required for total revenues and investment return, total expenses, change in net assets, and net assets at the beginning of the year. Entries of zero for any of these categories will require explanations. A negative entry for total expenses must be corrected.

Net assets, end of year will carry forward from Part A, line 6, total net assets. The adjustments to beginning of the year net assets is computed by subtracting the change in net assets (line 4) and net assets at the beginning of the year (line 5) from the value carried forward for net assets at the end of the year.

The amounts entered for total revenues and investment return (line 1) and total expenses (line 2) are carried forward to Parts D and E, respectively.

[Top](#)

Part C – Scholarships and Fellowships

It is expected that all schools reporting on IPEDS award Pell grants, therefore a value for Pell grants must be entered on line 1.

Explanations are also required if the amounts reported for any of the student grant categories are less than zero. Total scholarships and fellowships are calculated as the sum of lines 1 through 6 and should not be zero. The total of scholarships and fellowships is expected to be between 50% and 150% of the amount reported in the prior year.

[Top](#)

Part D – Revenues and Investment Return

Tuition and fees are expected for all institutions. An explanation is required for any amount entered that is less than or equal to zero for this category. Negative entries in any category in this Part will require an explanation.

Only 4-year institutions may enter hospital revenues. If the institution is part of a hospital (rather than an institution that operates a hospital), only the instructional program should be reported. Only 4-year institutions may report independent operations. These are defined as large federally funded R&D operations.

The total revenues and investment return amount entered on part B, line 1 is carried forward to this Part, line 16. Other revenue is computed as the difference between total revenues and investment return and the sum of the detail items from lines 1 through 14. If the total entered on Part B, line 1 is less than the sum of the detail items, a negative amount will result for Other revenue, which will require an explanation. If the amount computed for Other revenue exceeds 75% of total revenues, an explanation will be required. This also occurs when hospital revenue exceeds 75% of total revenue.

[Top](#)

Part E – Expenses by Functional and Natural Classification

Amounts must be reported for total instruction and total institutional support expenses. If the amount is zero or negative, an explanation will be requested.

The amount entered for a natural expense classification for any function cannot exceed the total expenses for that function. If a negative amount is reported for the total amount in any function, the institution will be prompted for an explanation.

Only 4-year institutions may enter hospital expenses. If the institution is part of a hospital (rather than an institution that operates a hospital), only the instructional program should be reported. Only 4-year institutions may report independent operations. These are defined as large federally funded R&D operations.

Total expenses as reported on line 13 is carried forward from Part B, line 2. Other expenses are calculated for each function and for the total line as the difference between the sum of salaries and wages, employee fringe benefits, operation and maintenance of plant, and depreciation, and total expenses as reported in the first column. For each natural expense classification, if the amount from line 13 is less than the sum of the amounts above, a negative amount will result on line 12 (other expenses), causing an error requiring an explanation.

[Top](#)

Part H – Details of Endowment Assets

This part will appear only for institutions that have answered the endowment screening question indicating that the institution, its affiliated entities or foundations own endowment assets.

All amounts reported in this Part must be greater than or equal to zero.

[Top](#)
